

Based on the images provided from the ConsumerLab.com report, here is a summary of the findings regarding various Extra Virgin Olive Oil (EVOO) brands, followed by a consolidated chart.

Summary of Findings

The report tested several popular olive oil brands to verify if they met the strict chemical and sensory standards required to be labeled "Extra Virgin."

- **High Failure Rate:** A significant number of well-known brands (including Trader Joe's, Costco/Kirkland, Goya, and Colavita) received an "**Uncertain**" status. While they generally met chemical standards (like acidity), they failed sensory taste tests.
- **Common Defects:** The most common reasons for failure were sensory defects, specifically:
 - **Rancidity:** Indicates oxidation/aging (found in Spectrum, Terra Delyssa, Carapelli, California Olive Ranch Global Blend).
 - **Fustiness:** A defect caused by fermentation of olives before pressing (found in Trader Joe's, Costco, Goya, Colavita).
- **Grading Downgrades:** Many oils labeled as "Extra Virgin" were downgraded by testers to "**Virgin**" or even "**Lampante**" (a grade indicating the oil is not fit for human consumption without refining, though in this context usually indicates poor flavor/aroma quality).
- **The Winners:** Only a few specific products achieved "Approved" status with no defects: **Lucini Italia**, **Life Extension**, and the **California Olive Ranch (100% California)** specific variety.

EVOO Testing Results Chart

Approved Oils (True Extra Virgin)

Product Name	Sensory Grade (IOC/USDA)	Defects	Oleic Acid %	Notes
Lucini Italia Organic EVOO	Extra Virgin	None	83%	Robust flavor; high oleic acid.
Life Extension California Estate	Extra Virgin	None	80.4%	Top Pick for high polyphenols.
California Olive Ranch 100% California (Medium)	Extra Virgin	None	77.9%	Top Pick for mild EVOO.
California Olive Ranch Everyday Blend	Extra Virgin	None	75.1%	<i>Marked as Discontinued.</i>

⚠️ Uncertain / Not Approved (Failed Sensory Standards)

Product Name	Sensory Grade (IOC / USDA)	Key Defects Found	Oleic Acid %
California Olive Ranch Global Blend (Medium)	Virgin / Virgin	Rancid	80.4%
Carapelli Unfiltered EVOO	Virgin / Virgin	Rancid	68.6%
Colavita EVOO	Virgin / Lampante	Fusty, Rough	83%
Goya EVOO	Ordinary / Lampante	Fusty	74.4%
Gundry MD Polyphenol-Rich	Lampante / Lampante	Fusty, Winey, Sediment	72.3%
Kirkland Signature (Costco) Organic	Virgin / Lampante	Fusty	77.9%
Spectrum Culinary Organic	Virgin / Lampante	Rancid	63.3%
Terra Delyssa Organic	Virgin / Lampante	Fusty, Rancid	64.4%
Trader Joe's Premium	Ordinary / Lampante	Fusty	83%
